PROFESSIONAL SUMMARY

- Front-End Developer with 12 years of experience building and maintaining enterprise-scale web applications across Travel, Video Ad-Tech, Telecom, and Healthcare domains.
- Strong expertise in Angular (4/7/14/17/19), React (17/19), and AngularJS, with hands-on experience in TypeScript, JavaScript (ES6+), HTML5, CSS3, and SCSS.
- Experienced in developing responsive, reusable, scalable, and maintainable UI components and SPAs, using Angular Material, Bootstrap, Material UI, and Ant Design.
- Strong experience with REST API integration, dynamic forms, reusable components, custom directives, validation, authentication/authorization, and frontend security.
- Proficient in RxJS, NgRx, Akita, Signals, Context API and Redux for scalable state management and reactive application development.
- Experienced in application modernization, framework upgrades, legacy migration, performance optimization, lazy loading, code splitting, caching, virtual scrolling, and efficient change detection.
- Familiar with Micro Frontends using Nx and Module Federation, SSR/SSG, accessibility, i18n, dashboards/data visualization, Agile/Scrum, CI/CD, testing, and code reviews.

TECHNICAL SKILLS

• Core:	JavaScript (ES6+), TypeScript
• Frameworks:	Angular 4/7/14/17/19, React 16/17/19, Angular JS
• UI & Styling:	HTML5, CSS3, Sass, Bootstrap, Angular Material, Material UI, Ant Design
• State Management:	NgRx, Akita, Signals, RxJS, Redux
• Chart Libraries:	High Charts, ECharts, NVD3
• Unit Testing:	Jest, Jasmine, Vitest
• Developer Tools:	Angular/React DevTools, Chrome DevTools
• AI Tools:	Github Copilot (Agent mode)
• IDE & Build Tools:	VS Code, NPM, Webpack, Vite, Nx
• Project Management:	Azure DevOps, Git, SVN, Jira, OpenProject
• Methodologies:	Agile, Scrum
• Operating System:	Windows, Linux
• Domain Expertise:	Travel, Telecom, Healthcare and Video Ad-Tech

PROFESSIONAL EXPERIENCE

Application Developer ICON plc, Chennai One IT SEZ, Chennai. Payroll: Xevyte Technologies Pvt. Ltd, Bengaluru.	Aug. 2025 – May 2026
Senior Technical Specialist iLink Digital Private Limited, RMZ Millenia Park-II, Chennai.	Jan 2025 – Jun 2025
Senior Software Developer Software Developer Sify Technologies Limited, Tidel Park, Chennai.	Jul. 2023 – Jan. 2025 Aug. 2019 – Jun. 2023

Software Engineer Level 2

YuMe India Private Limited, Ascendas IT Park, Chennai.

Jul. 2017 - May 2019

Senior UI Developer**UI Developer**

Convergent Technology Solutions Private Limited, Chennai.

Jun. 2016 – Jul. 2017

Jun. 2014 – May. 2016

KEY PROJECTS

IDP(ICON DIGITAL PLATFORM)

The ICON Digital Platform is an end-to-end solution to enable patient services throughout the clinical trial.

Key Responsibilities:

- Developed a dynamic C-SSRS assessment module using Angular Reactive Forms.
- Implemented JSON-driven questionnaire rendering using FormArray and nested FormGroup structures.
- Built configurable question flows with conditional visibility, validation, and most severity ideation logic.
- Integrated REST APIs to load questionnaire definitions and persist assessment data.
- Implemented state management using NgRx for assessment data retrieval and updates.
- Developed reusable form components supporting radio buttons, checkboxes, and dynamic question types.
- Wrote and maintained unit tests using Jest.
- Collaborated with designers, backend developers, QA engineers, and project managers.
- Created Functional Design Specifications (FDS) for the developed C-SSRS module.

Technologies: Angular 19, TypeScript, RxJS, NgRx, Reactive Forms, REST APIs

ITC (ICON TRIAL CONNECT))

The ICON Trial Connect is an end-to-end solution to use participants to interact with doctors throughout the clinical trial.

Key Responsibilities:

- Developed a participant profile module using React Hook Forms.
- Implemented JSON-driven data for prepopulating.
- Integrated REST APIs for retrieving data.
- Implemented state management using Redux for assessment data retrieval and updates.
- Wrote and maintained unit tests using Jest.
- Collaborated with designers, backend developers, QA engineers, and project managers.
- Created Functional Design Specifications (FDS) for the developed module.

Technologies: React 19, TypeScript, Redux, React Hook Forms, REST APIs

VUCEM 3.0

Digital platform that allows users to apply for services such as Agricultural Loans and Health Insurance through a single online portal. Users submit required data and documents electronically, and authorities review, validate, and issue digital authorizations upon approval.

Key Responsibilities:

- Worked Micro Frontend architecture using Nx and Module Federation to manage multiple applications.
- Developed scalable forms using Angular Reactive Forms.
- Implemented state management using Akita.
- Wrote and maintained unit tests using Jest.
- Collaborated with designers, backend developers, QA engineers, and project managers.
- Resolved ESLint issues, addressed cross-browser issues, and optimized application performance.
- Created validation documentation and generated Compodoc documentation.

Technologies: Angular 17, Akita, Bootstrap, Nx

AAKAASH FIELD TRACK

Aakaash Field Track is an internal user platform designed to provide users with monitoring field engineers, track field tasks, leave approval, travel distance approval, and attendance report.

Key Responsibilities:

- Upgraded application Angular 7 to Angular 14 version.
- Built forms using Template Driven forms and Reactive forms.
- Implemented state management using NgRx.
- Wrote unit tests using Jasmine + Karma.

Technologies: Angular 14, NgRx, RxJs, Angular Material

AAKAASH PORTAL

Aakaash Portal is a customer-facing platform designed to provide users with an integrated view of various aspects related to service requests, network performance reports, inventory, and trouble tickets.

Key Responsibilities:

- Fixed UI bugs, cross-browser issues, consume RESTful APIs services and optimize performance.
- Built forms using React Hook Forms.
- Implemented state management using Redux.
- Collaborated with designers, backend developers, QA, and project managers.

Technologies: React 17, TypeScript, Bootstrap, Redux

PARTNER PORTAL

Partner Portal Allows reporting and operations for both Advertisers and Publishers.

Key Responsibilities:

- Refactored legacy code to modern Angular standards in Angular 7.
- Translated mockups into functional components.
- Developed real-time web applications using WebSocket for live data updates.

- Ensured applications are responsive across devices and browsers.
- Implemented dynamic forms, and interactive UI elements.

Technologies: Angular 7, Bootstrap

PUBLISHER PORTAL

Publisher Portal Allows to manage their profile, user management and advertising details.

Key Responsibilities:

- Fixed UI bugs, cross-browser issues, and optimized performance.
- Consumed RESTful APIs services.
- Implemented forms using Ant Design.
- Collaborated with designers, backend developers, QA, and project managers.

Technologies: React 16, JavaScript, Ant Design

SATA TRAVELS (B2B & B2C)

Sata Travels Provides Agents and Users can make on-line bookings for Flight and Hotel from the portal.

Key Responsibilities:

- Converted UX/UI design prototypes into responsive and functional web pages.
- Developed Single Page Applications (SPAs) using AngularJS.
- Integrated RESTful APIs to consume backend services and manage data flow.
- Collaborated closely with QA testers to identify, troubleshoot, and resolve UI/UX issues.

Technologies: Angular JS, Bootstrap

EDUCATION

Bachelor of Engineering: Electronics and Communication Engineering
Annai Mathammal Sheela Engineering College (Anna University) - Namakkal, Tamil Nadu
