OBJECTIVE

11.5 years of experience as a Front-End Developer specializing in Angular, AngularJS, and ServiceNow UI. Proven expertise in designing, developing, and maintaining scalable, high-performance web applications across the Travel, Video Ad-Tech, Telecom, and Healthcare domains. Seeking an opportunity to leverage my technical expertise, continuously learn emerging technologies, take on greater responsibilities, and contribute to the success of the organization.

PROFESSIONAL SUMMARY

- Hands-on experience with Angular, AngularJS, and ServiceNow UI development.
- Experience in developing highly interactive web applications using Angular 4/7/14/17/19, AngularJS 1.2/1.5, Angular Material, Ant Design, RxJS, NgRx, Akita, Bootstrap, TypeScript, JavaScript, HTML5, and CSS3.
- Hands-on experience in upgrading Angular applications to the latest versions.
- Hands-on experience in migrating module-based Angular applications to standalone architecture.
- Proven experience in optimizing Angular application performance using OnPush, trackBy, Pure Pipes, Lazy Loading, AsyncPipe, shareReplay, Virtual Scrolling, Standalone Components, Signals, and takeUntilDestroyed.
- Experienced in developing secure Angular applications by implementing Auth0, JWT authentication, HTTP-only cookies, HTTPS, XSS and CSRF protection, and Role-Based Access Control (RBAC).
- Good experience in developing Single Page Applications (SPAs) using RESTful APIs.
- Proficient in building responsive web applications using Bootstrap, Ant Design, and Angular Material.
- Experience with Angular Routing, including CanMatch, CanLoad, CanActivate, CanDeactivate guards, and Route Resolvers for access control and data preloading.
- Good experience in developing real-time web applications using WebSocket for live data updates.
- Hands-on experience with Angular Web Workers to offload CPU-intensive tasks from the main UI thread.
- Good Experience in creating charts and dashboards using High Charts, ECharts, NVD3.
- Good Experience in creating reusable components, custom directives, custom pipes and custom validators.
- Developed and maintained Template-Driven Forms, Reactive Forms, and Signal Forms.
- Built dynamic and metadata-driven forms including nested form structures using FormBuilder, FormArray, FormGroup, and FormControl.
- Implemented complex form validations, conditional rendering and dynamic form generation based on JSON.
- Good understanding of Components, Signals, Models, Life Cycle hooks, Interpolation, Promises, Observables, Routing, Lazy Loading, Auth Guard, Interceptor, Data Sharing between components, Dependency Injection, Internationalization, Dynamic Forms, RxJs, NgRx, CORS, XSS, CSRF, CSP, JWT.
- Explored Micro Frontend architecture using Nx and Module Federation to manage multiple Angular applications and shared libraries.
- Experienced in implementing SSR and SSG to enhance SEO and improve page load performance.
- Contributed to CI/CD pipelines by collaborating on linting, testing, building, and deployment automation.

EDUCATION

Bachelor of Engineering: Electronics and Communication Engineering

Annai Mathammal Sheela Engineering College(Anna University) - Namakkal, Tamil Nadu

TECHNICAL SKILLS

- **Core:** HTML5, CSS3, JavaScript (ES6+), TypeScript
- **Frameworks:** Angular 4/7/14/17/19, Angular JS, ServiceNow UI
- **Styling:** Sass, Bootstrap, Angular Material, Ant Design
- **State Management:** NgRx, Akita, Signals, RxJS
- **Chart Libraries:** High Charts, ECharts, NVD3
- **Unit Testing:** Jest, Jasmine + Karma, Vitest
- **Developer Tools:** Angular DevTools, Chrome DevTools
- **AI Tools:** Github Copilot, Agent AI
- **IDE & Build Tools:** VS Code, NPM, Webpack, Vite, Nx
- **Version Control:** Azure, Git, SVN
- **Project Management:** Azure DevOps, Jira, OpenProject
- **Methodologies:** Agile, Scrum
- **Operating System:** Windows, Linux
- **Domain Expertise:** Travel, Video Ad-Tech, Telecom and Healthcare
- **Additional Technologies:** C#, ASP.NET, React

EMPLOYMENT HISTORY

Application Developer, ICON plc, Chennai One IT SEZ, Chennai.

Aug. 2025 – May 2026

Payroll: Xevyte Technologies Pvt. Ltd, Bengaluru.

ICON plc: ICON is the world's leading clinical research organization, providing outsourced clinical development and services to the pharmaceutical, biotechnology and medical device industries.

ICON Digital Platform: The ICON Digital Platform is an end-to-end solution to enable patient services throughout the clinical trial.

C-SSRS: The **C-SSRS** form stands for the Columbia-Suicide Severity Rating Scale, a standardized questionnaire used to assess suicidal thoughts and behaviors. It is commonly used in hospitals, mental health clinics, emergency departments and research studies.

Responsibilities:

- Developed a dynamic C-SSRS assessment module using Angular Reactive Forms.
- Implemented JSON-driven questionnaire rendering using FormArray and nested FormGroup structures.
- Built configurable question flows with conditional visibility, validation, and most severity ideation logic.
- Integrated REST APIs to load questionnaire definitions and persist assessment data.
- Implemented state management using NgRx for assessment data retrieval and updates.
- Developed reusable form components supporting radio buttons, checkboxes, and dynamic question types.
- Wrote and maintained unit tests using Jest.
- Collaborated with healthcare domain experts to implement standardized mental health assessment workflows.
- Created Functional Design Specifications (FDS) for the developed C-SSRS module.

Technologies: Angular 19, TypeScript, RxJS, NgRx, Reactive Forms, REST APIs

Senior Technical Specialist, iLink Digital Private Limited, RMZ Millenia Park-II, Chennai. Jan 2025 – Jun 2025

VUCEM 3.0 – Digital platform that allows users to apply for services such as Agricultural Loans and Health Insurance through a single online portal. Users submit required data and documents electronically, and authorities review, validate, and issue digital authorizations upon approval.

Responsibilities:

- Worked Micro Frontend architecture using Nx and Module Federation to manage multiple applications.
- Developed scalable forms using Angular Reactive Forms.
- Implemented state management using Akita.
- Wrote and maintained unit tests using Jest.
- Collaborated with designers, backend developers, QA engineers, and project managers.
- Resolved ESLint issues, addressed cross-browser issues, and optimized application performance.
- Created validation documentation and generated Compodoc documentation in Spanish.

Technologies: Angular 17, Akita, Bootstrap, Nx

Sify Technologies Limited, Tidel Park, Chennai.

Aug. 2019 – Jan. 2025

Senior Software Developer | Jul. 2023 – Jan. 2025

Software Developer | Aug. 2019 – Jun. 2023

Aakaash Field Track - is an internal user platform designed to provide users with monitoring field engineers, to track field tasks, leave approval, travel distance approval and attendance report.

Responsibilities:

- Upgraded application Angular 7 to Angular 14 version.
- Built forms using Template Driven forms and Reactive forms.
- Implemented state management using NgRx.
- Optimized application speed, lazy loading, code splitting, and caching.
- Wrote unit tests using Jasmine + Karma.
- Collaborated with designers, backend developers, QA, and project managers.

Technologies: Angular 14, NgRx, RxJs, Angular Material

Aakaash Portal - is a customer-facing platform designed to provide users with an integrated view of various aspects related to service requests, network performance reports, inventory, and trouble tickets.

Responsibilities:

- Fixed UI bugs, cross-browser issues, consume RESTful APIs services and optimize performance.
- Optimized application speed, lazy loading, code splitting, and caching.
- Wrote unit tests using Jasmine + Karma.
- Collaborated with designers, backend developers, QA, and project managers.
- Implemented security best practices on the frontend (XSS, CSRF prevention).

Technologies: Angular 7, Bootstrap, RxJs

Software Engineer Level 2, YuMe India Private Limited, Ascendas IT Park, Chennai.

Jul. 2017 - May 2019

Partner Portal - Allows reporting and operations for both Advertisers as well as Publishers.

Responsibilities:

- Refactored legacy code to modern Angular standards in Angular 7.
- Translated mockups into functional components.
- Ensured applications are responsive across devices and browsers.
- Implemented dynamic forms, and interactive UI elements.
- Collaborated with designers, backend developers, QA, and project managers.

Technologies: Angular 7, Bootstrap

Convergent Technology Solutions Private Limited, Chennai.

Jun. 2014 - Jul. 2017

Senior UI Developer | Jun. 2016 – Jul. 2017

UI Developer | Jun. 2014 – May. 2016

Sata Travels(B2B & B2C) – Provides Agents and Users can make on-line bookings for Flight and Hotel from the portal.

Responsibilities:

- Converted UX/UI design prototypes into responsive and functional web pages.
- Developed Single Page Applications (SPAs) using AngularJS.
- Integrated RESTful APIs to consume backend services and manage data flow.
- Collaborated closely with QA testers to identify, troubleshoot, and resolve UI/UX issues.

Technologies: Angular JS, Bootstrap

DECLARATION

I hereby declare that the above written particulars are true to the best of my knowledge and belief.

Place: Chennai
